Artist/Poet collaboration with art piece "I'm Still Here"

I Am Still Here

lest you forget, I am still
here.

another shadow,
another year.

another sting
another slap.

another reason I won't
fight back.

another wrinkle
another fold.

another story
that won't be told.

amongst those dusty
crevices

faces get lost
or were they hid?

from the sunshine
from the rain

without a thought
of love or pain

so raise your glass
and kiss the air

and ask out loud
are you still there?
